Defects Raised:

Defect ID	Defect Description	Severity	Status	Test Case ID(s)
#DEF-001	Login button unresponsive on mobile devices	Critical	Open	TC_005

Conclusion:

- **Total Tests Executed**: 10
- **Tests Passed**: 8
- **Tests Failed**: 2
- **Test Status**: 80% Pass Rate

The **login button's unresponsiveness** on mobile devices (Defect ID: #DEF-001) has been raised as a critical issue. The team needs to investigate and fix the issue to ensure smooth functionality across all devices. Other test cases have passed, and the website is performing well overall.

Actions Required:

1. **Fix the defect (#DEF-001)**: The development team needs to resolve the issue with the unresponsive login button on mobile devices.
2. **Retest on Mobile Devices**: Once the issue is fixed, the mobile responsiveness of the login button should be retested to ensure it works across all devices.
